# DESIGN SERVICES

With a dedicated and passionate team of designers and project managers, we provide the best selection of office furniture from leading manufacturers. Whatever your preferred taste or style, we have the perfect match. By gaining a key understanding of your business, we apply our extensive design experience and knowledge to fulfil your needs.

Sit back and let our design team manage your office furniture project. We will guide you through the entire process, ensuring that you are happy with the choices made to fit with your buying decisions. Whatever your business size or sector, we will work with your budget, ensuring that you are delighted with the results.

You benefit from access to our 2D layouts and 3D rendered visuals, which provide you with an overview of the finished design. This way, there are no unexpected surprises as you understand precisely how your new office furniture will look once installed.

## 2D & 3D LAYOUTS

Our 2D layouts provide a fantastic way for you to visualise the design of your new office furniture before completion. Our team of designers will discuss schemes with you once they have measured the space.

The site survey, space planning and 2D layouts are free of charge and all part of the process, showing precisely how the proposed office layout will look.

3D-rendered visuals provide an outstanding way for you to view the design and layout of your new office furniture scheme. Why settle for the details on paper when our 3D-rendered visuals illustrate a complete walkthrough of the space, bringing every aspect of your new interior to life.

Here you will be able to see the setting as it will look for real, down to every little nuance and accent. 3D architectural visualizations are the way to go when you want a 100% understanding of the look and feel of your new office furniture layout.

## RENDERED VISUALS

# PHONE BOOTHS

Our range of booths and pods are great for dividing busy open-plan areas. They enable staff to work in acoustic booths when making important phone calls.

The pods provide privacy at an affordable price, allowing staff to move away from busy areas when they need to concentrate or work with sensitive material.

## PHONE BOOTHS

Our range of acoustic phone booths is incredibly popular in office areas, as are our pods.

Use them to provide privacy and a soundproof area even in small spaces such as corridors.

# PERSONAL BOOTHS

Personal booths provide an area of peace and calm with busy offices and help support personal well-being. Soundproof booths and pods come in a range of sizes.

Our design team can also create a bespoke layout to suit your needs. Great for use in schools, offices, commercial spaces and anywhere that added privacy is required.

## PERSONAL BOOTHS

Booth seating and pods allow users to focus and escape the hum of noisy and bustling environments.

Useful for making private phone calls, relaxing or simply having a meeting away from distractions.

# MEETING BOOTHS

When you need to conduct a private meeting, our specialised booths offer the perfect space. Frequently used in open-plan offices, they provide a solution when noise is a problem.

We can fit them with telephones, AC and office equipment so that users can easily transition from one area to another. Useful to get away from busy communal areas.

## MEETING BOOTHS

Open-plan offices work well until you need to avoid noise and distractions. Staff can find themselves competing to be heard.

This is when meeting booths are very useful, holding up to ten people.

# MEDIA BOOTHS

Our range of media booths have something for every type of environment, no matter your budget. Check out our range of styles including those suitable for two or up to eight people.

They are perfect for private meetings, presentations in small groups and all types of discussions. With all media equipment included, getting together becomes easy.

## **MEDIA BOOTHS**

We not only supply media booths but install them too. Select a booth to match your brand colours or interior design.

Each booth has been carefully designed to reduce sound contamination from outside.

# MEETING PODS

Our range of meeting pods is suitable for indoor and outdoor use, providing private spaces for office, healthcare, educational or even retail use.

Each pod is manufactured from top-quality materials and with a comprehensive range on offer, you are sure to find something to suit your needs. Talk to our design team today.

## MEETING PODS

Meeting pods are a great investment so it pays to buy quality. Our pods have full acoustic interiors and come with mains power or solar charging.

Choose a colour/design to match with your company brand.
